Dear Vince:

Attached are copies of the letter and tables and the original map from New Mexico Utilities Inc. I contacted Mr. Ertsgaard this morning and he said the golf course was conducting a feasibility study and no design information was available. The Table on Water Use may help with the pumping rate question, but there is no information on the screened interval. Would you please return the map when you through? We will need it for our files.

Thanks for your help.

Yours truly,

A. Elizabeth Gordon
