Dear Mr. Mico:

The Hazardous and Radioactive Materials Bureau (HRMB) is in receipt of your letter dated July 16, 1992 requesting our concurrence with your proposed procedures for repairing two cracks in the Pond Closure Cap noted during the 1/16/92 and 5/28/92 inspections.

Our technical staff has reviewed the approach and finds it acceptable. HRMB requests that Sparton forward a copy of the report supplemented with any field notes and pictures taken during the repair operation for our review. Please notify us immediately in the event that any unforeseen circumstances necessitate an alternative approach to repairing the cap.

If you have any questions regarding this matter, please contact Ms. Susan Collins of my staff at 827-4308 or 827-4358.

Sincerely,

Edward L. Horst
RCRA Program Manager
