Mr. Edward Horst
Hazardous and Radioactive Materials Bureau
New Mexico Environment Department
P.o. Box 26110
525 Camino de los Marquez
Santa Fe, NM 87502

Dear Mr. Horst:

Enclosed is a copy of a letter sent to Ms. Collins on August 28, 1992. Dr. Bruce Swanton called on August 31, 1992 requesting a clarification of this issue in writing.

Sparton Technology, Inc. is requesting that NMED allow us to take groundwater samples on September 22-24, 1992 instead of October 5-7, 1992 for our 4th Quarter Assessment Report. We intend to sample all the wells in our Alternate Groundwater Monitoring Program for the usual parameters.

The reason for sampling at the end of the 3rd Quarter rather than the beginning of the 4th Quarter is outlined in the enclosed letter to Ms. Collins. Dr. Swanton indicated that this change in the sampling schedule was acceptable to him.

If you concur, please inform us in writing or by calling John Wakefield or myself at (505) 892-5300. Thank you for your attention to this matter.

Sincerely,

SPARTON TECHNOLOGY, INC.

RD Mico
