Dear Mr. Phillips:

It has come to the attention of the Hazardous and Radioactive Materials Bureau (HRMB) that our document file on Sparton Technology, Inc. (ST), Albuquerque, New Mexico, is incomplete. Our records show that HRMB has never received a copy of the EPA-approved (July, 1992) RCRA Facility Investigation from ST. The Administrative Order on Consent (pg. 18, Section IV.C) specifies the obligation of ST to provide HRMB with a copy of this document.

It is our understanding that EPA has multiple copies of ST's approved RCRA Facility Investigation. HRMB would appreciate it if EPA would send us a copy of ST's approved RCRA Facility Investigation.

Sincerely,

Edward L. Horst, RCRA Program Manager
Hazardous and Radioactive Materials Bureau
