528 Camino de los Marquez
Santa Fe, New Mexico 87502

Dear Mr. Horst:

Received your letter dated June 23, 1998 concerning the Comprehensive Groundwater Monitoring Evaluation (CME) of selected wells at the Coors Road Facility. Sparton Technology, Inc. will provide site access, well sampling equipment, disposal of purge water, and assistance with purging and sampling of the selected monitoring wells. As stated in your letter, July 26, 1998 is a mutually acceptable date to commence with groundwater sampling.

Sparton Technology's, Inc. Environmental Group will split samples on all the on-site and off-site wells that HRMB selects. Please let us know what parameters, and which wells will be sampled so that we have time to order the appropriate number and type of sample bottles.

If you need additional information or have any questions please contact John Wakefield or myself at (505) 892-5300. Thank you for your attention to this matter.

Sincerely,
SPARTON TECHNOLOGY, INC.
