September 21, 1994

Mr. Mark Sides
New Mexico Environment Department
Hazardous and Radioactive Materials Bureau
525 Camino de los Marquez, Suite 4
Santa Fe, NM 87502

Dear Mr. Sides:

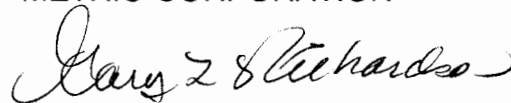

As per our discussions with you, we plan to file a Draft Post Closure Permit Application for the Sparton Technology Coors Road Plant on or before November 30, 1994.

Having spoken with Pierce Chandler, it is our understanding that the EPA may not respond to Sparton's Corrective Measures Study until well into 1995.

If you have any questions concerning these matters, please contact us.

Sincerely,

METRIC CORPORATION

Gary L. Richardson, P.E.
Executive Vice President
