Dear Rob:

In confirmation of our telephone conversation on December 9, 1994 and at your request, this letter is written. Sparton Technology, Inc. intends to file a new proposed well monitoring program as part of its Post-Closure Care Permit Application. Regarding your suggestion that Sparton install new monitoring wells, we have elected to defer this issue until we receive comments back to our proposed Corrective Measures Study from Region VI. We are told informally by Vincent Malott that he intends to provide us with his comments before Christmas.

If you have any further questions or comments, please feel free to give me a call.

Respectfully,

R. Jan Appel  
Vice President and  
General Counsel
