

2/16/95 Richard Vintre called re: Sperton Technologies

requested extension on Sperton Technologies  
submitted until March 1, 1995.

(requested in my 2/16/95 letter)

I approved his request.

Then we waiting for input from  
EPA on their corrective measures  
report, and may ask for more  
time if EPA doesn't get back  
to them.

Also, <sup>our</sup> letter was late being delivered  
because we had the wrong zip code.
