Mr. Roger Peery
John Shomaker & Associates Inc.
2703-D Broadbent Parkway NE
Albuquerque, New Mexico 87107

Dear Mr. Peery:

RE: Analytical Data for Sparton Technology, Inc. - Coors Road Facility, Albuquerque, New Mexico

In response to Ms. Cheryl Waybright's March 8, 1996 facsimile request, I have prepared the enclosed package of materials. Specifically, the request was for results of Sparton Technology's (ST) January, 1996 ground water sampling data, as well as analytical data available to the public by the end of February, 1996.

Enclosed are all the ground water analytical results for the January, 1996 sampling event. Also, there is a compendium of data for specific monitoring wells covering the period from approximately 1989 to the present. These data represent the majority of the ground water analytical results for the ST facility. I am unable currently to provide all the requested data because of lack of resources. Should you wish to review the data, please contact me for an appointment in accordance with the enclosed New Mexico Environment Department (NMED) policy. Additionally, as provided in this policy and in my telephone call on the above date, there is an NMED charge for copying services of \$15.75, plus mailing charge, if appropriate.

If I can be of further assistance to you, please contact me at the above address or at (505) 827-1560.

Sincerely,

Ronald A. Kern
RCRA Technical Compliance Program Manager
