Dallas, TX 75202-2733

OCT 20 1998

Dear Mr. Hebert:

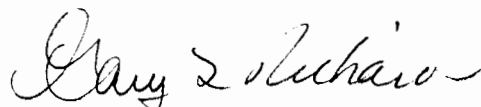

I want to confirm that we plan to shut off the AcuVac System at Sparton's Coors Road facility today as per my voice mail message to you yesterday. I spoke to Baird Swanson today and he said the State was in agreement with our plan.

The system will probably be off for about 30 days while the vadose zone re-equilibrates prior to the proposed soil gas sampling.

If you have any questions please contact me.

Sincerely,

METRIC Corporation

Gary L. Richardson, P.E.  
Executive Vice President
