Total Number of Pages: 3 If all pages were not received, please contact the sender.

COMMENTS:

See attached regarding good news concerning getting water level data from Sparton for the modeling task. The second page of the attachment is a form that Sparton is currently using to report ground water information to the State. Baird and Carl, I have initially talked to you about this form. John Rose indicated that if his spreadsheet would be a better reporting mechanism, then Sparton preferred using it. I will talk to you again soon about this issue.

Thanks, Hebert

COMPANY: EPA**SUBJECT:** NMED Sampling and Data Sheet for 3rd Quarter Ground Water Sampling**Number of pages including this page: 2**

Mike: Here is a copy of the format of the Quarterly Ground Water Report that Sparton submitted to NMED for the 3rd quarter 1998. Sparton will be mailing you an electronic copy (3.5" floppy disk) of two Microsoft Excel files containing monitoring well water elevations measured since 1992 including elevations measured during Sparton's 3rd quarter ground water sampling.
