Paul Indeglia  
Environmental Resources Management  
16300 Katy Freeway  
Houston, TX 77094-1611

**VIA FAX**

Dear Mr. Indeglia:

This letter is to confirm our meeting this Friday, January 28, at 10:30 a.m., at HRMB offices in Santa Fe. Attendees will be Rick Bost, Tony Hurst, David Cobrain, and myself, with Michael Hebert of EPA participating via telephone.

I am faxing with this letter directions to our office and a map. Let me know if you cannot read the map or have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Carl Will".

Carl Will  
Environmental Specialist

New Mexico Environment Department  
Hazardous and Radioactive Materials Bureau  
2044 Galisteo St.  
Sparton Cost Estimate Meeting  
Friday, January 28, 10:30 a.m.

1. Take I-25 north from Albuquerque;
2. Take the St. Francis Drive/84/285 exit (the second Santa Fe exit, about an hour from Albuquerque);
3. Go north on St. Francis Drive (bear left after exiting);
4. After the third traffic light, which is at Siringo Road, take the next right, an exit from St. Francis to go east on St. Michaels Drive, just before the overpass over St. Michaels;
5. Follow the exit to the right to go right or east onto St. Michaels;
6. Take the first right, onto Galisteo St., at the traffic light immediately after you are on St. Michaels;
7. Our office is on the right, on a parking lot between two tan stucco office buildings, and across from a day care center with a Tibetan flag. I think it's the third driveway. A sign in front of the parking lot says 2044 Galisteo/New Mexico Environment Department. Our office is in the building to the right as you enter the parking lot. Enter by the door closest to the street, where a little blue sign says Hazardous and Radioactive Materials Bureau.
