**Subject:** Sparton - Monthly Report for Month of July 2000  
**Date:** Mon, 7 Aug 2000 10:52:14 -0600  
**From:** "Tony Hurst" <ahurst@flash.net>  
**To:** "Michael Hebert" <HEBERT.MICHAEL@epamail.epa.gov>,  
"James Bearzi" <james\_bearzi@nmenv.state.nm.us>  
**CC:** "Baird Swanson" <baird\_swanson@nmenv.state.nm.us>,  
"Mark Schmidt" <mschmidt@cabq.gov>,  
"Dennis McQuillan" <Dennis\_McQuillan@nmenv.state.nm.us>

Attached is the monthly report for the month of July 2000.

Let me know if you have any questions.

Tony

PS: Please note that I have switched back to my original Phone number (505-864-1831). Unfortunately however the calls are currently automatically routed to my Cell phone (505 459 4630 - courtesy USWest, now called Qwest) since they anticipate some months before a REAL line connection can be made. Sorry if this is inconvenient to anyone.

## MONTHLY PROGRESS REPORT For month ending July 31 2000

CV-97-0206 (D.N.M)  
Albuquerque v. Sparton Technology, Inc.  
08/03/00

### ***Tasks Completed:***

#### Groundwater Monitoring Plan

- Reviewed the draft semi-annual annual progress report.
- Relieved pressure on all monitoring wells.

#### Public Involvement Plan

- The Public meeting was held July 6<sup>th</sup> at 7:00pm at 1510 Ellison Drive NW. Attendees included Representatives from the NMED (and HMB), City of Albuquerque (Public Works, Health Dept.), Melloy Dodge, and 5 members of the Public. The meeting started at 7:00pm and was finished by 8:15pm. All questions raised were addressed completely and to everyone's satisfaction. Action items included proposing to EPA that a small map be included with next years information letter showing the most recent available plume boundary.

#### Offsite-Containment System

- The system ran 100% of the time, and pumped 10,150,400 gallons (average of 220 gpm).
- Continued to work on the proposed contract with US Filter (Chromium treatment).

#### Assessment of Aquifer Restoration

-

#### Soil Vapor Extraction System.

- Melloy Dodge continues remodeling buildings at 9621 Coors Boulevard NW.
- Additional noise abatement measure on July 5<sup>th</sup> included adding two mufflers to the exhaust stacks. The noise level was further reduced.
- The 400 CFM blower system ran 90% of the time this month. Remodeling activities resulted in 72 hours of system down time (July 21<sup>st</sup>-24<sup>th</sup>).

#### Source Containment System

- Pursued permitting issues: These included
  - o The application for water rights with the State Engineers Office was obtained July 13th.
  - o The USBR misplaced the application for the water rights lease with the Village of Los Lunas (Applied 2/7/00). Reapplied mid July.
  - o It is believed that all issues have been resolved for the following, and the license agreements are expected in mid August.

- The license agreement for an easement crossing with the City of Albuquerque for the well pipeline (Applied 4/6/00).
- A license agreement for an easement crossing with AMAFCA for the well pipeline (Applied 4/6/00).

Other

- Changes were made to the Financial Assurance submission per comments received and the plan was issued mid July.

***Tasks Planned:***

Groundwater Monitoring Plan

- Quarterly monitoring of the wells.
- Meet with the Contractor and Engineer on the SAD (15<sup>th</sup> August) to review wellhead protection issues.

Public Involvement Plan

-

Offsite-Containment System

-

Assessment of Aquifer Restoration

-

Soil Vapor Extraction System.

-

Source Containment System

- Continue to pursue license agreements. The Construction work plan being prepared for regulatory review will be issued following receipt of all licenses and agreements.

Other

- Continue to update Taylor Ranch reference materials.

***Problems Encountered or Anticipated:***

- Permitting (easement) issues remain a potential issue.
