# MONTHLY PROGRESS REPORT For month ending February 28<sup>th</sup>, 2006

# CV-97-0206 (D.N.M) Albuquerque v. Sparton Technology, Inc.

#### 03/03/06

### Tasks Completed:

- A. Groundwater Monitoring Plan
- Continued to evaluate Monitoring Wells replacement needs.
- Distributed the semi-annual ground water monitoring report on February 3rd.
- Started on the 1<sup>st</sup> quarter GWMP sampling February 22<sup>nd</sup>.

#### B. Public Involvement Plan

- Completed the collection of addresses from the County Assessors office of property owners over the plume.

#### C. Deep Flow Zone System

- Continued with the implementation of the CW-3 Work-Plan. Development of CW-3 included testing and disposal of the cuttings drilling and development water.
- Worked on the DP-1184 addendum.

#### D. Assessment of Aquifer Restoration

- Continued to work on the 2005 Annual report

#### E. Offsite-Containment System

- The system ran 100.0% of the time and pumped 9,021,000 gallons (average of 225.8 gpm).

#### F. Source Containment System

- The system ran 100.0% of the time and pumped 2,045,400 gallons (average of 57.2 gpm).

### G. Other

-

HURST ENGINEERING SERVICES 17990 Clydesdale Road\* Colorado Springs, CO 80908 Email: tonyhurst@earthlink.net

## Tasks Planned:

H. Groundwater Monitoring Plan

- Continue to evaluate Monitoring Wells replacement needs.
- Continue the 1<sup>st</sup> quarter GWMP sampling.
- Start the QA/QC of the 1<sup>st</sup> quarter GWMP sampling activities.

#### I. Public Involvement Plan

- -
- J. Deep Flow Zone System
- Continue with the implementation of the CW-3 Work-Plan. Proposed development of CW-3 will include installation of a pitless adaptor, plumbing the well into the CW-1 air stripper, and possibly wiring it up to PNM (electric Utility) for testing. This latter activity would avoid the need to use a noisier portable generator for testing.
- Continue to work on DP-1184 modifications.

K. Assessment of Aquifer Restoration

- Pursue outstanding issues (if any are identified) related to approval of the 2004 Annual report from the EPA/NMED.
- Continue to work on the 2005 Annual report.
  - L. Offsite-Containment System
  - M. Source Containment System
- Monitor power consumption on new pump-motor combination on CW2.
  - N. Other
  - O. Problems Encountered or Anticipated:
