RE: Sparton Technology, Inc.—Former Coors Road remedial program request for approval of the use of passive sampling devices without site-specific testing EPA ID No NMD083212332

Dear Mr. Cobrain and Mr. Hendrickson:

We are in receipt of your correspondence dated September 21, 2016 that provided the conditions and reporting for implementation and use of alternative passive sampling devices.

Based upon the estimated costs of implementing these alternate sampling methodologies and the additional costs for the required field testing, Sparton had decided to not pursue this issue at the present time, and to continue with the sampling procedures that are currently in use.

If you have any questions, please contact me at 386.490.5811. Thank you.

Sincerely,

Ernesto Martinez
EHS Corporate Manager
