RE: Report of Interim Corrective Measures  
Transwestern Pipeline Company Roswell Compressor Station  
Reporting Period: October 1, 1994 through October 31, 1994

Dear Ms. Hoditschek,

This letter report of interim corrective measures at the Roswell Station covers the month of October 1994. Subsequent reports of interim corrective measures will cover the prior calendar quarter (i.e. October through December, January through March, etc.) and will be submitted to your office no later than the last day of the month following the reporting period (i.e. January 31, April 30, etc.) In May 1994, Transwestern Pipeline Company (TPC) had obtained the services of a local contractor, Pool Environmental Drilling (Pool), to provide routine operations and maintenance services. Each month, Pool prepares and submits a spreadsheet report which details various information associated with the interim corrective measures system. A copy Pool's report, for each month within a reporting period, will accompany this report and each subsequent quarterly report.

<b>I. Volume of Liquids Recovered (gallons)</b>	<u>During Reporting Period</u>	<u>To Date</u>
1. Phase Separated Hydrocarbons (PSH)	441	5,309
2. Ground Water	0	4,995
3. PSH and Ground Water Combined	441	10,304

### II. Accumulation Time for Recovered Liquids

1. Date liquids last removed from recovery tank	September 30, 1994
2. Last day of reporting period	October 31, 1994
3. Accumulation time to last day of reporting period	31 days

### III. General Comments

On October 13, 1994, a technician with Marlin Environmental Products was on-site to inspect each recovery pump and make necessary repairs. The skimmer device on each pump was adjusted in order to minimize the collection of ground water. The contractor personnel responsible for routine operation and maintenance of the system were also trained to perform pump inspections and minor repairs. No spills or leaks of recovered liquids were reported during the reporting period.

If you have any questions regarding the content or format of this report, or if my previous letter requesting an extension of time to respond to the NOD failed to address an issue your office requires to be addressed, please contact me at (713) 646-7644 or George Robinson at (713) 646-7327.

Sincerely,

Bill Kendrick
