RE: Transwestern Pipeline Company

For your information, I have enclosed a copy of two letters sent by Transwestern. The letter of February 13th informs OCD that they had sent the Corrective Action Plan to NMED whereas the letter of February 28th informs NMED that they had sent the Phase III Soil and Ground Water Assessment Plan to OCD.

I guess they like to play both sides of the street. Susan Hoines will review the Phase III Plan to make sure it agrees with what was in the CAP. If there is a problem with it, we will let you know.

*I didn't get this memo
until July 9, 1997.*
