Re: Regulatory Jurisdiction of Transwestern Pipeline Company's  
Laguna Compressor Station in Laguna, New Mexico, Cibola County

Dear Mr. Valdez:

Transwestern is in receipt of a letter from the Hazardous Waste Bureau requesting a biennial report for our Laguna Compressor Station. The location of this station is on Laguna Pueblo land and therefore this facility is under the jurisdiction of the U.S. Environmental Protection Agency, Region VI and not under the NMED. For this reason, the biennial report for this facility will be sent to US EPA Region VI and not to your agency. Should you have any questions on this issue, please contact me at the address listed in the letterhead or by telephone at (505) 260-4013. Thank you very much.

Sincerely,

John Steenberg  
Division Environmental Specialist
