RE: Notice of Soil Vapor Extraction System Restart
Transwestern Compressor Station No. 9
Transwestern Pipeline Company, LLC
Roswell, Chavez County, New Mexico
NMED 1656; NMOCD Case # GW-052
EPA ID No. NMD986676955

Dear Mr. Cobrain:

Transwestern Pipeline Company, LLC (Transwestern) is hereby providing notice of the restart of the soil vapor extraction (SVE) system at the Roswell Compressor Station (Transwestern Compressor Station No. 9). The SVE system was shut down on February 10, 2014 to allow for safe expansion of the SVE and groundwater extraction systems to the four new extraction wells, and update of the air permit, as documented in our February 11, 2014 letter. Due to equipment malfunction and maintenance, restart of the SVE system has been delayed. The SVE system was restarted on March 12, 2015.

If you have any questions or comments, please contact me at (281) 740-0494 or Gabriela Floreslovo (EarthCon Consultants, Inc.) at (281) 240-5200.

Sincerely,

A handwritten signature in black ink that reads "Stacy Boultinghouse".
