Dear Ms. Boultinghouse:

The New Mexico Environment Department (NMED) has received the Transwestern Pipeline Company, LLC (the Respondent) letter requesting a 30-day extension to the submittal of the Work Plan to Delineate Hydrocarbons in Perched Aquifer (Work Plan), initially received by email dated August 25, 2022. The Respondent also proposes a variation of the Work Plan format, outlined in Section IX of the Stipulated Final Order dated March 11, 2013 included as Attachment A of the request asserting that site-specific information has been provided in historical investigative reports.

NMED hereby grants the extension. The Work Plan must be submitted to NMED no later than **September 30, 2022**, as requested. With regard to the request for a format change, the request is approved; however, the Respondent must include a Background section following the Introduction section to provide appropriate context and rationale for the proposed work. The Background section may reference previous documents in accordance with Order Section IX.B.5 "[r]eferences to previous reports shall include page, table, and figure numbers for referenced information," but must provide sufficient information for the reader to be able to discern the rationale for the proposed work.
