**RE: Administrative Completeness of Permit Application for the
Proposed Triassic Park Hazardous Waste Disposal facility**

EPA ID Number: NM0001002484

Dear Mr. Gandy:

The New Mexico Environment Department (NMED), Hazardous and Radioactive Materials Bureau (HRMB) completed its administrative completeness review of the Gandy Marley Inc.'s (GMI) Triassic Park Hazardous Waste Disposal Facility Permit application that GMI submitted to HRMB in November of 1994. All items in the Permit Application Administrative Completeness Notice of Deficiency of January 10, 1995 have been sufficiently addressed by GMI in accordance with the New Mexico Hazardous Waste Regulations (20 NMAC 4.1), Subpart IX, 40 CFR §270.10(c). The application is taken to address a single hazardous waste disposal facility located 42 miles east of the city of Roswell, Chaves County, New Mexico.

The New Mexico Hazardous Waste Fee Regulations (HWFR-1) require the assessment of permit fees when all information is received that satisfy administrative completeness of a permit application. The fee for the Gandy Marley Hazardous Waste Disposal Facility is \$46,000.00. A fee statement and worksheet are enclosed. In accordance with the intent of HWFR-1, a primary consideration in assessing permit fees is the amount of staff time involved in each permitting function.

Basic Permit Fees

The basic permit fee is for review of numerous conditions common to all permits. These conditions are fully described in the New Mexico Hazardous Waste Management Regulations 20 NMAC 4.1, Subpart IX, 40 CFR §270.

Mr. Gandy, Gandy Marley Inc.
Page 2
March 1, 1995

Unit Fee

Gandy Marley applied for a hazardous waste permit to dispose of hazardous waste in a proposed Triassic Park Landfill which is located 42 miles east of the city of Roswell in Chaves County, New Mexico. The Landfill must be evaluated and specifications considered with respect to human health and the environment.

Public Participation Fees

A public participation fee of \$4,000.00 which is typically charged to all hazardous waste management permit applicants has been included in the total amount. This fee is included because, in response to the increasing level of public interest in the permitting process, the NMED now automatically schedules public information meetings in communities potentially affected by the issuance of new or modified operating permits.

Review of the application for technical completeness will begin upon receipt of the permit fee, which is due within thirty (30) calendar days of your receipt of this letter. Failure to pay the fee within this period may result in permit denial.

Thank you for your continued cooperation in our permitting process. If you have any questions, please contact me or Cornelius Amindyas of my staff at (505) 827-4308.

Sincerely,

Barbara Hoditschek, Manager
RCRA Permits Program
Hazardous and Radioactive Materials Bureau
