MARK E. WEIDLER  
SECRETARY

EDGAR T. THORNTON, III  
DEPUTY SECRETARY

#1

**M E M O R A N D U M**

**TO:** Richard Ohrbom, Ground Water Protection and Remediation Bureau

**FROM:** Bob Sweeney, Hazardous & Radioactive Materials Bureau 

**DATE:** April 28, 1995

**SUBJECT:** Technical Review of a RCRA Permit Application for a Hazardous Waste Treatment, Storage, and Disposal Facility

The Hazardous & Radioactive Materials Bureau (HRMB) is performing a technical review of the RCRA Permit Application for the Triassic Park Waste Disposal Facility. The proposed facility is for hazardous wastes. It will be located in eastern Chaves County. Gandy Marley, Inc. of Tatum will be the owner/operator. As part of the technical review, HRMB is evaluating the design and construction plans of the proposed facility's evaporation pond and is seeking your input. An index map, drawings, and pertinent text copied from the Permit Application are attached. Please evaluate the materials and give me your thoughts on the surface impoundment's suitability for hazardous waste containment.

HRMB will conduct a Visual Site Inspection of the proposed facility location on May 19, 1995 and would appreciate your comments prior to that date. If you have questions please call me at 827-4308. Thanks for your time, interest, and ideas.
