

29 Aug 95

#15

P.D. ①

~~CONFIDENTIAL~~

Alan - design to date is preliminary

John - ALR + LC/LRS #s will come last  
- idea is to have < 1 ft of head everywhere  
in the system.  
- design provided to date was to give  
idea of general design  
- final design will be given after permit  
is approved

Caryn - can permit be approved w/ some  
items pending?

Cornelius - yes - but dates will be in permit  
as conditions of approval.

Dale - will provide schedule for submit  
plans after approval - need time  
for financing - some of design depends  
on financing - 6 months max

John - liners - need guidance from us  
so design heads in right direction! -  
will provide doc to us.

Alan - document will include cross-section (line,  
side slope, etc) to compare  
design to TCRRA reqs.

Jim - Risk - item 76 - no potential  
prob not possible - will record  
statement in permit to indicate minimum  
possible (rather than low)

Cardyn - SWINUs - the other 8 -  
which are 90-day areas?

Trey & Cornelius - send response to HAD - not  
amending the permit app - this will  
avoid several revisions of app.

Triassic Park meeting - 29 Aug. 95:
