November 1, 1995

Mr. Larry Gandy
Vice President,
Gandy Marley Inc.
Triassic Park Disposal Facility
1109 East Broadway
Tatum, New Mexico 88267

**RE: Technical Adequacy of Permit Application for the Proposed
Triassic Park Hazardous Waste Disposal Facility**

EPA ID Number: NM0001002484

Dear Mr. Gandy:

The New Mexico Environment Department (NMED) Hazardous and Radioactive Materials Bureau (HRMB) has completed technical review of the Gandy Marley, Inc. (GMI) part B permit application, and GMI's response to the Notice of Deficiency (NOD) of August 8, 1995. HRMB received the response to the NOD on October 3, 1995.

After review of the part B application and the supplementary information NMED has determined the application to be technically adequate and to meet the requirements for RCRA permits identified in New Mexico Hazardous Waste Management Regulations.

The draft permit will be prepared beginning November 1, 1995. Should any further questions arise, HRMB will request additional information when necessary, to clarify, modify, or supplement previously submitted material.

If you have any questions please contact me, Bob Sweeney, or Cornelius Amindyas at (505) 827-1561.

Sincerely,

Barbara Hoditschek, Manager
RCRA Permits Program
Hazardous and Radioactive Materials Bureau

Larry Gandy, Gandy Marley Inc.
