~~CONFIDENTIAL~~

TO: David Duran, Solid Waste Bureau

FROM: Bob Sweeney, Hazardous & Radioactive Materials Bureau *BS*

DATE: December 1, 1995

SUBJECT: **Technical Review of Gandy Marley, Inc. "Response to Notice of Deficiency" - Triassic Park Hazardous Waste Disposal Facility.**

The Hazardous and Radioactive Materials Bureau (HRMB) is reviewing the "Response to Notice of Deficiency for Triassic Park Part B Permit Application" submitted by Gandy Marley, Incorporated (GMI) on September 29, 1995. The Notice of Deficiency was sent from HRMB to GMI on August 8, 1995 following a technical review of GMI's November 1994 permit application for the Triassic Park Hazardous Waste Disposal Facility. The Solid Waste Bureau (SWB) assisted HRMB in the technical review by commenting on the proposed landfill issues.

HRMB appreciates the SWB's past support in evaluating the permit application and is now requesting help in reviewing GMI's Response. Copies of the NOD Comments (only those dealing with the proposed landfill, i.e. #s 24-54, 68-70, 104-109, 114-116, 136, 137, & 140), GMI's Responses, a "Waiver Justification Document", and the permit application figures and text which SWB reviewed earlier this year are enclosed. Would you kindly look over the documents and advise us of concerns you might have. I may be reached at 827-1558. Please return all documents when your review is completed. Thank you for your time, interest and comments.
