#5

Need to demo. liner materials are compatible
w/wastes - geomembrane, geonet, etc.

Alt 2 looks good

Alt 3 - why higher GCL?

Alt 4 = Alt 2 w/out GCL

Alt 5 = Alt 1 w/out GCL

HELP input - use NOAA data (not HELP model default)

GMI should choose alternate (or MTR) they
prefer & submit HELP data for chosen alt. only.

Cover - need to show perm. is \leq liner

- best to have cover design in hand
prior to Public Hearing (so as to
have a complete package to show
the public.)
