

Permit-

I met w/ Rick Stafford this a.m. re. the Gandy Marley permit. Both Rick & I have concerns with what TerraMatrix submitted on 4/1/96. We (Rick & I) called John Kendall @ TerraMatrix to discuss concerns. John will provide required info / changes asap. One hitch may be the additional details we need for the landfill design prior to the Public Meeting in mid-April. John advised me he'll need to discuss this w/ Dale Gandy prior to doing because this will be getting into "Final" design and costs will increase. Dale may be calling you about this.
