DEPUTY SECRETARY

October 1, 1996

Mr. Larry Gandy  
Gandy Marley, Inc.  
1109 East Broadway  
Tatum, NM 88267

RE: Request for the Final Engineering Design for the proposed Triassic  
Park Hazardous Waste Disposal Facility (EPA ID # 0001002484).

Dear Mr. Marley,

As you are aware, during the public notice period of the draft permit for your proposed facility (April 8 - May 23, 1996), several comments were received from the public. In addition, a request for a public hearing was received.

In reviewing the comments, request for a hearing, and the draft permit, the Hazardous and Radioactive Materials Bureau (HRMB) has been advised that the draft permit should have a hearing.

HRMB has also determined that the requirements of 40 CFR 270.14(a) and 270.21(b) must be met. These requirements specifically address a final designs and drawings for the facility that has been signed off by a registered professional engineer.

Gandy Marley is therefore requested to arrange for a meeting with HRMB as soon as possible to discuss the specifics concerning the requirements of their submittal. Please contact Mr. Jerry Bober, Supervisor, of my staff to make the arrangements and if you have any questions concerning this request.

Your cooperation in this matter is appreciated.

Sincerely,

*Barbara Hoditschek*

Barbara Hoditschek, Manager  
RCRA Permits Management Program

application form or instructions or, in the case of other submissions, by stamping the words "confidential business information" on each page containing such information. If no claim is made at the time of submission, EPA may make the information available to the public without further notice. If a claim is asserted, the information will be treated in accordance with the procedures in 40 *CFR* Part 2 (Public Information).

(b) Claims of confidentiality for the name and address of any permit applicant or permittee will be denied.

### § 270.13 Contents of Part A of the permit application.

Part A of the RCRA application shall include the following information:

- (a) The activities conducted by the applicant which require it to obtain a permit under RCRA.
- (b) Name, mailing address, and location, including latitude and longitude of the facility for which the application is submitted.
- (c) Up to four SIC codes which best reflect the principal products or services provided by the facility.
- (d) The operator's name, address, telephone number, ownership status, and status as Federal, State, private, public, or other entity.
- (e) The name, address, and phone number of the owner of the facility.
- (f) Whether the facility is located on Indian lands.
- (g) An indication of whether the facility is new or existing and whether it is a first or revised application.
- (h) For existing facilities, (1) a scale drawing of the facility showing the location of all past, present, and future treatment, storage, and disposal areas; and (2) photographs of the facility clearly delineating all existing structures; existing treatment, storage, and disposal areas; and sites of future treatment, storage, and disposal areas.
- (i) A description of the processes to be used for treating, storing, and disposing of hazardous waste, and the design capacity of these items.
- (j) A specification of the hazardous wastes listed or designated under 40 *CFR* Part 261 to be treated, stored, or disposed of at the facility, an estimate of the quantity of such wastes to be treated, stored, or disposed annually, and a general description of the processes to be used for such wastes.
- (k) A listing of all permits or construction approvals received or applied for under any of the following programs:
  - (1) Hazardous Waste Management program under RCRA.
  - (2) UIC program under the SWDA.
  - (3) NPDES program under the CWA.
  - (4) Prevention of Significant Deterioration (PSD) program under the Clean Air Act.
  - (5) Nonattainment program under the Clean Air Act.
  - (6) National Emission Standards for Hazardous Pollutants (NESHAPS) preconstruction approval under the Clean Air Act.
  - (7) Ocean dumping permits under the Marine Protection Research and Sanctuaries Act.
  - (8) Dredge or fill permits under section 404 of the CWA.
  - (9) Other relevant environmental permits, including State permits.
- (l) A topographic map (or other map if a topographic map is unavailable) extending one mile beyond the property boundaries of the source, depicting the facility and each of its intake and discharge structures; each of its hazardous waste treatment, storage, or disposal facilities; each well where fluids from the facility are injected underground; and those wells, springs, other surface water bodies, and drinking water wells listed in public records or otherwise known to the applicant within 1/4 mile of the facility property boundary.
- (m) A brief description of the nature of the business.
- (n) For hazardous debris, a description of the debris category(ies) and contaminant category(ies) to be treated, stored, or disposed of at the facility.

[48 FR 14228, Apr. 1, 1983, as amended at 57 FR 37281, Aug. 18, 1992]

### § 270.14 Contents of Part B: General requirements.

(a) Part B of the permit application consists of the general information requirements of this section, and the specific information requirements in §§ 270.14 through 270.29 applicable to the facility. The Part B information requirements presented in §§ 270.14 through 270.29 reflect the standards promulgated in 40 *CFR* Part 264. These information requirements are necessary in order for EPA to determine compliance with the Part 264 standards. If owners and operators of HWM facilities can demonstrate that
