

TELEPHONE LOG

November 6, 1997

A telephone conversation was held between Mr. Earle G. Breeding and Mr. Jerome Bober of the Hazardous and Radioactive Materials Bureau (HRMB) concerning the Triassic Park Facility.

Mr. Breeding stated that he was a private investigator hired by a firm in Texas to see if he could confirm that Gandy Marley was merely a front for this facility. Mr. Beeding was advised that HRMB had no information that could confirm this statement. He was also advised Gandy Marley had submitted a Disclosure Statement that was investigated by the New Mexico Department of Public Safety (DPS) and DPS stated in a letter dated December 30, 1996 that Gandy Marley had no adverse history of environmental violations nor significant criminal records.

Mr. Breeding was also advised of the status of the Gandy Marley application and that he could view any information we had on record. Mr. Breeding requested that he be advised of any future developments with Gandy Marley as well as any other activity in the state dealing with hazardous waste and/or low level radioactive waste landfill disposal.

Mr. Breeding was told that as far as the State is concerned Mr Gandy and Mr. Marley will be the owner/operators of the Triassic Park Facility until advised otherwise.
