Dear Ms. Dreith:

As we discussed last week via telephone, please complete the engineering review of the latest revisions to the Triassic Park Hazardous Waste Disposal Facility permit application. These revisions should have been delivered to you by the Facility contractor either last week or this week. The review should cover all revisions made in response to TechLaw's technical reviews and discussions with the Facility contractor, as authorized under the scope of work for the New Mexico Environment Department's General Permit Support Contract with TechLaw, Contract No. 99-667-5000-0008.

If you have any questions, please contact me at 505/827-1558.

Sincerely,

*Stephanie Kruse*
