**From:** delhart@cavemen.net (del hart)

**To:** "Carl Will" <carl\_will@nmenv.state.nm.us>

Carl,

I am sending you the revised Chapter 8 of the Gandy permit application. I have incorporated all of the changes resulting from NMED's comments, with the exception of those comments regarding the sampling frequency. Dale felt that we needed to discuss the overall closure sampling frequency with NMED. Would you please pass this information and this file to Stephanie? The file is in Wordperfect so I don't think you will have any problem opening it.

Thank you,

Trey
