CC: Carl Will <carl_will@nmenv.state.nm.us>, Stephanie Kruse <stephanie_kruse@nmenv.state.nm.us>

Diane:

I have received, by email, your draft copies of the revised Section 8 of Volume I of the Permit Application "Closure and Post-closure of Permitted Units", the "Worksheet for Calculating Required Number of Soil Samples" and the "Site Closure Cost Estimate".

Please send copies of the Facility Construction Drawings so that HRMB can complete the review of the Worksheet for Calculating Required Number of Soil Samples. HRMB currently has drawings provided in the Permit Application that are labeled "not for construction" and, in some cases, also are not to scale. In addition, please send the itemized supporting information for the cost estimate calculations provided in the Site Closure Cost Estimate. HRMB cannot complete a review of the estimated closure costs unless information is provided to indicate how the costs for the various closure activities were calculated.

Please call if you have questions regarding the additional requested information.
