Subject: Landfill Closure I

Remarks: Asked Diane if the Landfill waste storage will include Phase I A and Phase I B or just Phase I A because that would significantly affect the volume of backfill required to fill the Landfill excavation at closure. She did not know but said that she would contact Pat Coarsen for the information and call with an answer.

I also asked if she had received the email regarding the leachate treatment facility sent by me to Pat Coarsen with cc: to her email address. She confirmed receipt of the email message.

In addition, I asked for the chemical analytical cost data that I requested from her in a voice mail message left on August 14, 2000. She said she would fax the laboratory price list and the list of anticipated chemical analyses to be requested for closure soil samples.

Action Required: Wait for additional information to be supplied by Montgomery Watson

Action Taken:
