**RE: REQUIREMENTS FOR ISSUANCE OF THE DRAFT TRIASSIC PARK RCRA PERMIT**

Dear Mr. Gandy:

The New Mexico Environment Department (NMED) provided Gandy Marley, Inc. (GMI) a list of final required permit application revisions in a letter dated January 30, 2001. As I have discussed with Ken Schultz on numerous occasions, NMED intends to issue the Triassic Park draft permit for public comment on or about March 15, 2001. In order to meet this ambitious schedule, GMI must finalize its permit application.

In response to NMED's January 30<sup>th</sup> letter, GMI submitted revisions of Permit Application Sections 6 & 7 on February 21. GMI still must submit its final revisions to Permit Application Section 4.0 (Waste Analysis Plan). My staff provided Montgomery Watson today with electronic copies of suggested revisions which would meet NMED's requirements.

To meet the March 15<sup>th</sup> public notice, GMI must submit the final Section 4.0, fully incorporating the final revisions no later than close-of-business March 8<sup>th</sup> (tomorrow). NMED will accept electronic transmittal of this document with the hard copy sent via the mail. In any event, NMED must have at least one week after receipt of GMI's final document to review the submittal and revise the permit accordingly.

If you have any questions or comments you can call me at (505) 827-1557.

Sincerely,

A handwritten signature in black ink, appearing to read "James P. Bearzi".
