Santa Fe NM 87502

April 20, 2001

Dear Ms Kruse,

This is to request an information meeting in Albuquerque regarding the proposed Triassic Park hazardous waste facility planned for east of Roswell, for these reasons:

- 1) Lack of information in Spanish
- 2) Lack of the draft permit for review. It was only available at the NMED offices in Roswell and Santa Fe from 8am to 5pm.
- 3) Public campaign of misinformation by Dale Gandy to portray facility as a landfill for household toxics such as paints and cleaners.
- 4) Lack of public disclosure as to magnitude and scope of the facility - that it may accept thousands of tons each year of leads, mercury, arsenic, benzines, DDT, DDD, TOC, PCB, organic volatiles etc.

Such a facility and others planned affect all New Mexicans and we should know about it and have a voice! Sincerely,
Doreen Bunting
