Sirs:

I regret that I will be unable to attend the Public Information Meeting on Friday. However, I would like to take this opportunity to express my support for your Triassic Park hazardous waste management facility east of Roswell.

Although I have received two letters criticizing your project, I have also made an effort to learn some facts about the proposed facility. I am convinced that the geology of the area is appropriate for the treatment, storage, and disposal of the kinds of hazardous waste you are proposing to handle. Furthermore, I know you have made every effort to meet the very strict standards set by both state and federal regulations.

I realize that citizens often fear those things that have been labeled "hazardous", but we must be realistic. We must understand that this waste is much better treated and stored in a specially prepared facility than scattered about communities under less than safe conditions.

Again, I apologize for not being able to attend the meeting. I do wish you well in your endeavors and urge you to contact me if I may be of any assistance to you in this effort.

Sincerely,

Rep. Avon W. Wilson
District 59
