Subject: Triassic Park waste dump

July 19, 2001

Dear Sir,

I am writing to let you know that I am against the Triassic Park waste dump. I am a 50 year old house wife who is environmentally concerned, I vote and I read.

Lately, I have become very jaded and cynical and in my heart I feel that this toxic dump is already planned and will move forward, but still I feel I must tell you how very angry it makes me that we not only get to have the WIPP project, but now this toxic dump planned for our own backyard.

I hear people say they don't want to be known as the "UFO Capitol of the World" yet they certainly don't mind being the toilet bowl for the country. Enough. Let the cities that created these toxic wastes deal with them themselves. After all, their citizens were the ones who had the paying jobs that created these wastes.

The wind blows endlessly in New Mexcio and this dump is going to have open pits. Roswell already has an alarming rate of cancer and other chronic diseases.

Thank you for your time.
