Re: Request for Public hearing; matter of final permit for Triassic Park Waste disposal facility U.S. EPA NM0001002484

Dear Secretary Maggiore:

This letter accompanies a request for hearing. It is the applicant's intention to try to bring the hearing process to final resolution as quickly as is allowed under the procedures. The applicant has been involved in this permit process for over 6 years and many of the delays during that time period have been outside its control. The applicant appreciates the consideration by the department for a request that will be made to the hearing officer to shorten maximum procedural deadlines, as allowed in the hearing officers discretion. The applicant also contents that should you grant this public hearing it will resolve any issues regarding the request for extension of the public comment period. Thank you for your attention and if you have any questions or comments about this request, please contact my office.

Sincerely,

  
Pete V. Domenici, Jr., Esq.
