**To:** Holly Harris-Schott  
**Subject:** Triassic Park

Ms. Harris-Schott:

The New Mexico Environment Department appreciated your interest in the proposed Triassic Park as demonstrated by your correspondence dated August 3, 2001. Your correspondence suggests that you intend to present "technical" testimony at the hearing. Please be informed that to present that testimony you must adhere to the procedures outlined in NMED's Public Notice, specifically the requirement that you provide the NMED a Notice of Intent to Present Technical Testimony.

Please see the Public Notice provided to you as a mail out, or visit our web page at [www.nmenv.state.nm.us/hwb/hazwaste\\_home.html](http://www.nmenv.state.nm.us/hwb/hazwaste_home.html) by clicking on Permits/Draft Permits.

Also be informed that the NMED intends to hold a pre-hearing meeting sometime in the near future whose goal it will be to inform people of the procedural aspects of the hearing and to explain any portion of the Public Notice.

Please contact me with any questions either by e-mail or by telephone at 505 428-2544.

Thank you, Steve Pullen (Project Manager)
