

ENTRANCE

Mr. Steve Pullen  
New Mexico State Environment Department  
Santa Fe, New Mexico

Nov. 9, 2001

Dear Mr. Pullen,

Thank you for providing me with the information I requested on the Triassic Park Hazardous Waste Site.

I will be using this information on a speech that I will be giving for Toastmasters Club 3109, here in Roswell. I have read all of the newspaper articles and have read one of the Fact Sheets.

The NMED does not take hazardous waste dumping lightly, and I believe that Gandy Marley Inc. is a responsible firm.

Hopefully, the state Highway and Transportation Department will be as critical as NMED.

Thank you again, for your time.

Sincerely,

Barbara Trim
