RE: TRIASSIC PARK – NMED ISSUES FINAL PERMIT

Dear Interested Citizen:

The New Mexico Environment Department (NMED) issued a Hazardous Waste Facility Permit (Permit) to Gandy-Marley, Inc. (GMI) of Tatum, New Mexico on March 18, 2002. On April 17, 2002 the Permit becomes effective authorizing GMI to treat, store and dispose of hazardous waste at their Triassic Park Facility in accordance with conditions stipulated in the Permit. In issuing the Permit, NMED involved the public through public notices, meetings, and a public hearing. You are receiving this letter because at some time in the past you have expressed an interest in Triassic Park. NMED would like to thank you for your interest because we believe our discourse has resulted in an improved Permit.

You may view the Permit and a Response to Public Comment in the reference section of the Roswell Public Library, at the Hazardous Waste Bureau at the address in the above letterhead, or on the NMED web page at ([www.nmenv.state.nm.us/HWB/tpperm.html](http://www.nmenv.state.nm.us/HWB/tpperm.html)).

Any person seeking additional information regarding the Permit may contact Steve Pullen of my staff either by telephone at (505) 428-2544, or by e-mail at ([steve\\_pullen@nmenv.state.nm.us](mailto:steve_pullen@nmenv.state.nm.us)).

Sincerely,

John E. Kieling  
Manager  
Permits Management Program
