PUBLIC NOTICE No. 11-09
PERMIT RENEWAL SUBMITTAL
TRIASSIC PARK WASTE DISPOSAL FACILITY

HAZARDOUS WASTE FACILITY PERMIT
RCRA PERMIT NO. NM0001002484

November 29, 2011

This public notice announces the New Mexico Environment Department's (NMED) receipt from Gandy Marley, Inc. (GMI) of a hazardous waste permit renewal application for the Triassic Park Waste Disposal Facility (**Triassic Park**) and the availability of this application for public review.

Background:

The State of New Mexico is authorized to operate a hazardous waste management program in lieu of the Federal program for the Resource Conservation and Recovery Act (RCRA). Under authority of the New Mexico Hazardous Waste Act (HWA; Section 74-4-1 *et seq.*, NMSA 1978, (1998 CUM. SUPP.)) and the New Mexico Hazardous Waste Management Regulations (20.4.1 NMAC, Revised March 1, 2009), the NMED can approve, approve with conditions, or deny, hazardous waste management permit and closure plan applications, permit modifications, amendments, and reapplications. Pursuant to 20.4.1.901.C(2) NMAC, NMED must notify the public that a major permit application has been submitted to the Agency and that application is available for public review. Under these authorities and obligations, NMED hereby provides public notice of the permit renewal application identified below.

NMED is charged with issuing a permit that will ensure that GMI's hazardous waste operations are properly managed to protect human health and the environment. On March 18, 2002, NMED issued for the first time a hazardous waste permit (**Permit**) to GMI, hereafter referred to as the "Permittee." The Permit authorizes the Permittee to treat, store, and dispose of hazardous wastes in accordance with the HWA and its associated regulations. It is this Permit that the Permittee proposes to renew with considerable changes. The Permit specifies that it shall be effective for a term of ten years and that the Permittee may request a permit renewal by submitting an application at least 180 days before the Permit's expiration. By submitting the renewal application on October 17, 2011, the Permittee has met this requirement.

The hazardous waste portion of the Triassic Park Waste Disposal Facility has not yet been constructed and is proposed to be located in southeastern New Mexico on approximately 480 acres of land in Chaves County. The site is located near US Highway 380 in Sections 17 and 18 of Township 11 South, Range 31 East, approximately 43 miles east of Roswell and 36 miles west of Tatum, NM.

Availability:

Hard copies of this permit application are available for public review weekdays between 8:00 am through 5:00 pm at the following locations:

New Mexico Environment Department - Hazardous Waste Bureau, 2905 Rodeo Park Drive East, Building 1, Santa Fe, New Mexico 87505. The permit application for renewal can be reviewed weekdays between 8:00 a.m. and 5:00 p.m. Please request an appointment to review the permit application submittal and any supporting documents by calling the Hazardous Waste Bureau at 505-476-6000 or 505-476-6064.

New Mexico Environment Department - Roswell Field Office, 1914 W. Second Street, Roswell, New Mexico.

An electronic copy of the permit application is available for public review at NMED's website at: <http://www.nmenv.state.nm.us/hwb/tpperm.html>. In addition, the current Triassic Park Hazardous Waste Facility Permit can also be found at this same website address.

NMED Contact:

Mr. John Kieling, Acting Chief
NMED Hazardous Waste Bureau
2905 Rodeo Park Drive East, Building 1
Santa Fe, New Mexico 87505-6303
Phone: 505-476-6035
John.Kieling@state.nm.us

GMI Contact:

Mr. Larry Gandy, Vice President
Gandy Marley, Inc.
P.O. Box 1658
Roswell, NM 88202
Phone: 575-347-0434

Triassic Park Mailing List:

Individuals that desire to be included on NMED's facility mailing list for Triassic Park should request inclusion by contacting Ms. Pam Allen at 505-476-6064 or at Pam.Allen@state.nm.us.

Proposed Action:

This notice is intended only to inform the public that the permit renewal application has been submitted to the NMED and that it is available for public review; no action or decision is proposed by NMED at this time. The public will have an opportunity to comment when NMED provides public notice of a draft permit.
