June 15, 2016

NOTICE OF PUBLIC COMMENT
PERIOD AND OPPORTUNITY TO
REQUEST A PUBLIC HEARING
ON A DRAFT HAZARDOUS
WASTE PERMIT FOR TRIASSIC
PARK WASTE DISPOSAL
FACILITY, EPA ID NUMBER:
NM0001002484

The New Mexico Environment Department (Department) intends to issue a Hazardous Waste Permit to Gandy Marley, Inc. (GMI) the owner and operator of the Triassic Park Waste Disposal Facility (Facility) to dispose of hazardous waste under the federal Resource Conservation and Recovery Act (RCRA), the New Mexico Hazardous Waste Act (Chapter 74, Article 4 NMSA 1978, or the HWA), and their implementing regulations. The Facility may also dispose of certain wastes contaminated with low levels of polychlorinated biphenyls (PCBs). The action to be taken by the Department would renew an existing permit. The Department is charged with issuing a permit that will ensure that the Facility's hazardous waste operations are properly managed to protect human health and the environment. If an applicant meets all of the conditions required for an operating facility, the state will issue a permit. The Facility consists of a landfill that has not been constructed to date.

The proposed Facility is located in southeastern New Mexico on approximately 480 acres of privately owned land in Chaves County. The site is located in Sections 17 and 18 of Township 11 South, Range 31 East, and is located approximately 43 miles east of Roswell and 36 miles west of Tabam, New Mexico and south of U.S. Highway 380. The Applicant's primary contact and address for this action is: Mr. Larry Gandy Post Office Box 1658, Roswell, New Mexico 88202.

The Department also announces the availability of a Fact Sheet providing the basis for the proposed action on the draft Permit and the significant factual and regulatory issues considered in preparing the draft Permit. The Fact Sheet explains the basis for the draft permit and permit conditions, including applicable statutory and regulatory support.

El Departamento del Medio Ambiente de Nuevo México (Departamento) tiene la intención de otorgar un Permiso para Residuos Peligrosos a Gandy Marley, Inc. (GMI) como propietario y operador del Vertedero Triassic

Plan (Vertedero) para el depósito de residuos peligrosos conforme a la Ley Federal de Conservación y Recuperación de Recursos (RCRA), la Ley de Nuevo México para Residuos Peligrosos (Capítulo 74, Artículo 4 NMSA 1978, o HWA por su sigla en inglés) y su reglamento de implementación. El Vertedero puede también recibir ciertos residuos contaminados con bajos niveles de tóxicos polidlorados (BPC). La acción a tomar por el Departamento renovaría un permiso ya existente. El Departamento tiene a su cargo emitir un permiso que garantizará que las operaciones con residuos peligrosos del Vertedero se realicen de manera adecuada para proteger la salud de las personas humanas y el medio ambiente. Si un solicitante cumple con todas las condiciones exigidas para un vertedero en funcionamiento, el estado emitirá un permiso. El Vertedero consta de un relleño sanitario que no ha sido construido hasta la fecha.

El Vertedero propuesto está ubicado en el suroeste de Nuevo México, en una superficie de aproximadamente 480 acres de un terreno de propiedad privada en el condado de Chaves. El sitio se encuentra en las Secciones 17 y 18 del Distrito Municipal (Township) 11 Sur, Zona (Range) 31 Este, y está ubicado aproximadamente a 43 millas al este de Roswell y a 36 millas al oeste de Tatum, Nuevo México, y al sur de la Ruta Nacional 380. La información principal de contacto con el Solicitante de esta acción es: Mr. Larry Gandy, Ppjt Office Box 1658, Roswell, New Mexico 08202.

El Departamento también anuncia que dispone de una Hoja de Datos que proporciona el fundamento de la acción propuesta para el proyecto de Permiso y las cuestiones importantes de carácter fáctico y regulatorio que se consideraron al preparar el proyecto de Permiso. La Hoja de Datos explica el fundamento del proyecto de permiso y de las condiciones del permiso, incluso las correspondientes bases jurídicas y regulatorias.
