Ron -

Attached is the relevant portion of my testimony at the WIPP public hearing last year regarding NMED's position on financial requirements for private contractors at federal facilities. I will transmit by mail NMED's Findings of Fact and Conclusions of Law regarding this same issue, as well as a short news article concerning an agreement between DOE and the State of Tennessee on post-closure funding at Oak Ridge.

If you have any further questions about the testimony (perhaps you'd like copies of some of the documents I referenced), please let me know either by e-mail or phone [(505) 827-1560 x1013]. Hope this helps!
