Don -

Here's the response to your fax from Monday. Rocky Flats shipments RF000015 thru 17, recent repository report... Hanford WSPF for RLNPDT.001 and a \*new\* Rocky Flats WSPF for RF001.01... the nine page description of the pre-existing data process at Hanford (and cover letter) from DOE... a letter from DOE asking us to suspend our evaluation of this process... our comments sent yesterday in response to this description.

I think that about covers it.

*Steve*

*p.s. I'm sending this in multiple transmissions*
