Steve,

Thank you for the INEEL Waste Stream Profile Form and the one container data report. I appreciate your remembering my continuing request for waste stream profile forms from any site when they are received.

Please confirm the following information:

1. Shipment and Receipt dates for RF000020 (you have provided the Summary Report)

Please fax me the following information:

1. Current information about Rocky Flats shipments since RF000020.
2. Any additional WWIS information about waste containers at Rocky Flats, Hanford, or INEEL in process for shipment to WIPP, or upcoming shipments from any of those sites.
3. The current repository report regarding status of drums received and emplaced at WIPP, if not included in your response to the above requests.
4. Any new correspondence between NMED and DOE regarding the "requirements document" or how DOE is dealing with "old data" or any such correspondence that you haven't previously provided me.

Thank you for your assistance.
