Don -

RF000022 was shipped 7/27, received 7/28. INEEL shipment KN000601 was received on 7/28. Attached is report for RF000023 (complete) and RF000024 (pending). The repository report shows little or no change for INEEL, LANL, and Hanford, ongoing activity at RFETS.

Also attached are the following: a July 21 letter transmitting Rev 1 of the "requirements document" (Rev 1 is on the WIPP web site); the position paper and viewgraphs from a May 16 presentation concerning waste characterization at WIPP; and the temporary authorization request dated July 19. These are all the documents I have to satisfy your e-mail request from yesterday.
