

Stock fence, Flux Canyon, Arizona

5 sept. 2000

Dear Steve -

It is with great stress and urgency that I write you this note urging you to Stop the Expansion of WIPP!!! You know as well as all of us that the prohibited material does not belong at ~~the~~ WIPP and to be stored above the ground. Therefore I ask NMED to deny the proposed class 2 modifications for the waste characterization + ~~open~~ have a public hearing on any such proposal to expand WIPP. For all New Mexicans,

Paul Attemann
