Steve,

Nice to catch up with you some this morning.

Please send me the following. I know this is a large amount of material, so if you want to fax it in parts or if it's easier to mail the WWIS that's fine.

1. WWIS information about shipments to WIPP since September 2 (shipment KN00804, which you faxed me on September 7), which should include shipments from Rocky Flats, Hanford, and INEEL. ✓
2. The current repository report. ✓
3. Any response received to your inquiries about the WWIS related to RL-00-02 and KN000803. — *no official response yet.*
4. DOE's letter "withdrawing" its class 2 modification on waste characterization. ✓
5. I understand that you will send me the NMED letter to DOE on the class 2 modification. ✓

Just for the record, I continue to want to receive copies of audit reports and waste stream profiles, which you have previously provided.

Thanks very much for your assistance.
