SUBJECT: Surveillance S-01-01 of the Rocky Flats Environmental Technology Site (RFETS) Qualification of Existing NDA Data

TO: Joseph A. Legare, Assistant Manager for Environment and Compliance

On October 24-25, 2000, the Carlsbad Field Office (CBFO) performed surveillance S-01-01 of the Rocky Flats Environmental Technology Site (RFETS) Qualification of Existing NDA Data. RFETS has not developed/revised the upper tier and technical procedures necessary to place qualified existing data into the WIPP Program. The surveillance team concluded that there was not sufficient information available to determine whether technical and quality assurance programs relating to the qualification of existing NDA Data were satisfactorily implemented and effective. Therefore CBFO will not be issuing a report for this surveillance.

If you have any questions or comments, please contact me at (505) 234-7423.
